

UL RECOGNISED COMPONENT LABEL MATERIALS

UL FILE NUMBER: MH 62212

UL Recognised Component Labels

Computer Printable Blank Label Range

PGJ12 and PGJ18 Recognised

If you need a UL Recognised Component Label, **we can help.**

CILS is an approved supplier of blank, computer printable UL recognised component labels designed for end-use durability. We work with you to understand your product and suggest the ideal component label for your application which meets your specific UL approval criteria. Labels are manufactured and supplied to you in the exact quantity, shape and size that you need.

For more information, samples and pricing please contact us on **0800 917 0024**

Key benefits

UL Recognised

CILS authorised label supplier (UL file number MH62212 & MH62213). All CILS labels have been tested by Underwriters Laboratories under the UL 969 Marking and Labelling System standard and are recognised for use on components sold in both the USA (PGJ12) and Canada (PGJ18).

Complete Traceability

CILS UL recognised labels will satisfy the UL compliance criteria and provide the necessary audit trail required for UL product certification.

A label for every application

Our large range of 30 UL recognised materials covers the majority of industrial component applications and end-use durability requirements.

Fast Manufacture

Labels are manufactured to any size or shape and are dispatched to you within the industry's fastest lead times.
